Error Logs - Record errors

I have had no errors throughout this code.

```
package Mastery;
 3 import java.util.Scanner;
 5 public class DigitsMastery {
 7⊝
       public static void main(String[] args)
 8
 9
           Scanner userInput = new Scanner(System.in);
10
           System.out.print("Please enter a 3 digit number: ");
11
12
           int user numb = userInput.nextInt();
13
14
15
           System.out.println("The number you have entered is " + user_numb + ".");
16
17
           int hundreds place = user numb / 10;
18
19
           hundreds_place /= 10;
20
21
           System.out.println("The hundreds place digit is: " + hundreds_place + ".");
22
23
           int tens_place = user_numb / 10;
24
           tens_place %= 10;
25
           System.out.println("The hundreds place digit is: " + tens_place + ".");
26
27
           int ones place = user_numb % 10;
28
29
           System.out.println("The ones place digit is: " + ones_place + ".");
30
31
32
       }
33
34
35 }
