Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	GuessingGame(Mastery)	
INPUT	**PROCESS**	**OUTPUT**
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
- Enter your guessed number between 1 - 20	- In a while loop, check if number is same as computers randomly generated number - While they are not the same, ask user for a number until the numbers are the exact same - If they are not the same, keep looping until the user enters the correct number - Else (if they are the same), user wins, and game ends	E.g. Enter a number between 1 and 20: 2 The random number was 2, good job. .
